Building	Room	PI
Equipment Covered		
☐ Eyewash Station		☐ Drench Hose
☐ Eye/Facewash Station		☐ Combination Eyewash/Shower
☐ Emergency Shower		☐ Combination Eye/facewash/Shower
Summary of Training (site speci	fic)	

Training to perform weekly activations and maintain minimum performance requirements for eye/face wash and shower equipment should be completed and documented by all laboratory occupants. Training must include the following.

- Discuss situations that would trigger the use of the equipment
- Discuss the types of equipment
- Review the inspection checklist with the trainee(s)
- Activate emergency equipment in use at this site
- Demonstration by person(s) being trained to activate emergency equipment
- Judge whether emergency equipment is operating correctly
- Submit a work order if emergency equipment is not working correctly
