

Permission to Work Alone Form

Before anyone is allowed to work alone in a laboratory, the potential hazards must be evaluated for the period the work will be performed, appropriate training must be completed, conditions to work alone must be defined, and the associated Principal Investigator/Supervisor must approve. Please complete this form and attach it to the appropriate lab(s) in BioRAFT (<https://uark.bioraft.com/>).

SECTION I: APPLICANT

Position: Under Grad. Student Grad. Student Post Doc
 Staff: Other

Name:

Department:

E-mail Address:

Building:

Campus Phone:

Room:

Short Description of Work to be Performed: (Briefly described the procedures the applicant is being approved to perform alone)

SECTION II: HAZARDS

Chemical Hazards: Check all appropriate boxes below

- None Peroxide Forming Chemicals Strong Corrosives Strong Acids
 Flammable Chemicals Strong Oxidizing Agents Strong Reducing Agents
 Other:

Biological Hazards: Check all appropriate boxes below

- None Infectious Agents Venomous Animals
 Other:

Radiological Hazards: Check all appropriate boxes below

- None High RF Fields LASERS X-Rays Isotopes
 Other:

Process Hazards: Check all appropriate boxes below

- None Machine Shop Equip. High Pressure Equip. High Voltage
 Working at Heights Handling Animals Large Quantity of Material
 Other:

I have completed all applicable Environmental Health and Safety training and I have received the proper experimental and emergency procedures from my principal investigator and I understand those procedures and the work I am authorized to perform

Applicant Signature

Date

SECTION III: PRINCIPAL INVESTIGATOR/SUPERVISOR APPROVAL

Building and Lab Number(s):

Hours Allowed to Access Lab:

Date Permission Expires:

Specific Procedures Implemented to Mitigate Risks from Hazards Indicated Above or Conditions to be Meet Not Otherwise Covered

Communication Conditions:

Physical Check-in by:

Send text or call on entry and exit to:

N/A - No additional communication required due to low risks

The applicant has been trained in the proper experimental and emergency procedures for the work to be performed and understand those procedures. This lab worker has permission to work alone as indicted by the above noted conditions.

Principal Investigator/Supervisor
